

FREQUENTLY ASKED QUESTIONS

WHO SHOULD CONSIDER *ERA MINI* DENTAL IMPLANTS?

Individuals who are unhappy with their present denture, who may benefit from a more confident, secure feeling when talking, eating, laughing and smiling.

WILL MY DENTAL INSURANCE COVER THIS?

Your dental professional can help determine if treatment with *ERA Mini* Dental Implants qualifies for coverage within your plan.

WHAT CAN I EXPECT WHEN THE IMPLANTS ARE PLACED?

The minimally invasive procedure often lasts about 90 minutes or less. Some patients experience no pain, while others experience some generally mild discomfort. Be sure to discuss any concerns about the procedure with your dental professional.

WHAT KINDS OF FOODS CAN I EAT WITH *ERA MINI* DENTAL IMPLANTS?

You may be able to enjoy the same foods you did when you had a full set of natural teeth.

Landa LS, et al. A prospective 2-year clinical evaluation of overdentures attached to non-splinted implants utilizing ERA attachments. *Pract Proced Aesthet Dent.* 2001; 13: 151-156.

ERA Mini® Dental Implant System

DISCOVER THE AFFORDABLE DENTURE ALTERNATIVE THAT'S A SNAP

The *ERA Mini* Dental Implant System provides affordable denture stabilization that helps to restore the comfort, confidence and function you once enjoyed with your own natural teeth. In fact, you may be able to leave behind many of the inconveniences and limitations of traditional dentures.

IT'S A SNAP

With the *ERA Mini* Dental Implant System, it's a snap to quickly, easily and more securely hold your dentures in place. Plus, the minimally invasive procedure can be performed in as little as one office visit.

THE MANY BENEFITS OF ERA MINI DENTAL IMPLANTS

- **ELIMINATE THE NEED FOR MESSY DENTAL ADHESIVES, PASTES AND POWDERS.**

ERA Mini Dental Implants hold your dentures more securely than adhesives. Your dentures come out only when you're ready to remove them.

- **REGAIN CONFIDENCE AND COMFORT WHILE EATING, SPEAKING, WORKING AND SOCIALIZING.**

Help to eliminate embarrassing signs of loose or poor-fitting dentures, including speech problems, lack of muscle coordination and clicking noises.

- **YOU MAY ENJOY FOODS THAT YOU HAVE BEEN AVOIDING FOR YEARS.**

Once your dentures are stabilized with *ERA Mini* Dental Implants, you may once again be able to chew and enjoy more of your favorite foods. In many cases, the added denture support enables removal of the upper denture palate—allowing you to feel the texture, temperature and, most importantly, the taste of your food.

- **SAVE MONEY WITH AN AFFORDABLE ALTERNATIVE TO TRADITIONAL IMPLANTS.**

Denture stabilization with *ERA Mini* Dental Implants generally costs less than traditional implants and eliminates the cost associated with purchasing denture adhesives.

- **GET YOUR DENTURE SECURED IN PLACE IN AS LITTLE AS ONE VISIT.**

This minimally invasive procedure, often done in just one visit, is so effective that with your doctor's permission you may even enjoy a light meal soon after having the *ERA Mini* Dental Implants placed.
